DETAILED ACTION

1. Applicant's arguments see remarks, filed 07/20/2007, with respect to claims 11-17 have been fully considered and are persuasive. The rejection of claims 11-17 has been withdrawn.

Allowable Subject Matter

2. Claims 11-17 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 11-17 are allowed because the reference cited fail to teach, as applicant has a computer system clocking system, said system comprising: at least two units with clock functionality, the units being coupled to a common system clock line, a common internal clock line, and a logic bus, wherein one unit is dedicated as a master unit at a time, the dedication of the master unit being dependent on at least a signal being given só as not to select a given unit for being a master unit, and if a given unit is dedicated as master unit when such a signal is given, the system performing a switchover causing another unit as the one not selected to be dedicated as master unit, each unit comprising: a clock source for generating a clock source signal, the clock source signal being adapted for being output on the internal clock line; and a phase lock loop device generating a signal, which is derived from the signal on the internal clock line, and which is output on the system clock line if the unit is dedicated as master unit, wherein one source clock signal of a unit is output on the internal clock line and all phase lock

loop devices of all units generate phase lock loop output signals derived from the internal clock signal, the outputs of the phase lock loop devices being in phase with one another such that switchover from one phase lock loop output signal to another is seamless.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nurul M. Matin whose telephone number is 571-270-1188. The examiner can normally be reached on mon-fri (7:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on 571-272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
